Assisted Living Facility #11969348

Living your story,

You've accomplished so much in your life, and as you look ahead, living richly is as important as ever. At Tessera of Brandon, we're committed to providing supportive and healthcare services that honors your legacy, enhances your wellness and focuses on your personal goals.

Simply put, we've created a community where you can continue to live your story, your way.

PUTTING
ALL THE PIECES
IN ONE PLACE.
FOR YOU.

Once you understand our name,
you'll understand our difference.

Tessera is the Latin word for an individual tile — a tile that when joined with others creates a beautiful mosaic. And every day, in ways big and small, we'll create an engaging community of individuals, each of whom is inspired to live their own story. In the process, we'll build a community rich in color, warmth and energy.

Tessera of Brandon, in partnership with Masterpiece Living®, provides residents the tools for successful aging as outlined in the book, *Successful Aging*.

Salus™. Embracing wellness in every way possible.

Tessera features 89 private and thoughtfully-designed Assisted Living residences. More importantly, it also features Salus by Solvere, our trademark wellness philosophy. Salus is Latin for “well-being,” and it symbolizes our profound focus on each resident’s potential to achieve his or her personal goals.

Powered by Masterpiece Living®, Salus embraces the four components of wellness — social, intellectual, physical and spiritual. We’ve integrated this philosophy throughout every aspect of life here. Every staff member — not just our care staff — receives extensive training to carry out our philosophy of observing and ensuring the engagement and contentment of every resident. As a result, residents enjoy an abundance of activities, programs and fascinating ways to connect with their neighbors, their families and the Tessera staff.

The Valeo™ Memory Care Neighborhood.

The 49-resident secured Valeo neighborhood includes both private and shared suites. These high-quality residences will make you feel completely at home.

The Salus by Solvere philosophy brings a dedicated level of care to people who are aging with memory impairment through the Valeo approach. Latin for “to thrive,” Valeo offers programs adapted specifically to help residents with memory impairments foster their well-being by focusing on their legacy through staff and family engagement.

In the Valeo neighborhood, residents and their families enjoy a sense of community where staff is focused on maximizing residents’ abilities in a homelike and comfortable environment through our signature Valeo philosophy and programming.

Putting all the pieces in place.

A lot goes into aging successfully — strong social engagement, a stimulating lifestyle, an environment that supports your unique goals and a deep sense of purpose. From our staffing to our carefully developed programs, Tessera of Brandon puts all those pieces together to provide independence, a sense of community and security.
